- **Hindi**
- **English**

Ashish Shukla
React JS Developer

As a React Developer, I have a proven track record of delivering high-quality, efficient and user-friendly web applications. I am able to identify and resolve complex technical issues quickly. Working collaboratively in agile environments makes me a valuable asset to any development team. Additionally, my strong communication skills allow me to effectively communicate technical concepts to both technical and non-technical stakeholders.

Experience

May(2021)-Currently
Civica Resources Pvt Ltd.
Software Engineer

- Developing UI screens with React JS along with responsiveness
- Hands on experience in Ant Design UI Library
- Worked on AKITA and REDUX TOOLKIT as a state management tool
- Developing reusable components for future use
- Working with custom hook for decreasing the code complexity
- Also Learning Dot NET to help completion of small Backend User Stories

Nov(2019)-April(2021)
Izaac Technology Pvt Ltd.
Software Engineer

- Integrating Responsive Design techniques with the most well-known frameworks
- Developing Front-End features using React.js
- Building reusable components and front-end libraries for future use
